Chief of orthopedics and rehabilitation at  
Coffeyville Regional Medical Center  
In his office

Object : Feedback on my rotation in Coffeyville orthopedic, PA and Coffeyville Regional  
Medical Center.

Dear Dr. Coles,

I am taking this opportunity to congratulate you for your involvement in the training of young haitian physicians especially in the orthopedic field. I want to thank you for following up with my request for an observership at Coffeyville Regional Medical center and making it a reality. During my rotation that took place in Spring of 2007, I have been exposed to a wide variety of orthopedic conditions, some urgent others less critical that have given me new views on the subject. I am very grateful to you for your dedicated and attentive mentorship from the beginning to the end. I have learned a lot, knowledge that I am looking forward to putting in good use during my medical career. I will never forget the hospitality of the personnel of the hospital that did everything the knew how to make sure that I was comfortable during my rotation. Those are things you just cannot forget. Thank you again for having me in your private practice, for opening the doors of your warm house to me, and for giving me this opportunity when all hope seemed to be lost.

Sincerely yours,

Jacques-Richard Pierre-Pierre,MD
