

REPORT OF TRAINING MAY & JUNE 2016 AT THE BROOKLYN HOSPITAL CENTER/NYC

July 22, 2016

Faustin Charles, MD

SURGERY/ 4th YEAR RESIDENT

Thank you for offering me this opportunity to have special surgery training in May and June. It was very valuable for me and will make me a better surgeon. I will use it to help other Haitian residents improve their skills. I hope that you will continue to offer this opportunity to future generations of Haitian residents.

I express my distinctive thanks to the Central Executive Committee of AMHE:

Dr. JC Serge Pierre-Louis, President

Dr. Paul Nacier, President-Elect

Dr. Micheline Lerebourgs Dole, Vice-President

Dr. Anthony Solages, Treasurer

Dr. Jean Rony Jean-Mary, Secretary

Dr. Jean Roosevelt Clerisme, Assistant Secretary

Dr. Mario Saint-Laurent, Assistant Treasurer

Marie Michael Debrosse-Bruno, Executive Director, BS, MBA-ISMA

Dr. Maxime Coles, Immediate Past President

A special thanks to SIMACT who negotiated the rotation program at the Brooklyn Hospital Center. I am very grateful for that.

I give special thanks to Dr Patrick Leblanc & Dr Paul Nacier who helped me in many ways, including improving my English use and by having special mentoring sessions with me.

Thank you to the residents who helped me and encouraged me during my stay. I very much appreciated their kind hospitality.

Opportunities to learn during the two months of training

Learned different methods of treatment for various types of wounds

Learned from many lectures (bowel inflammatory disease/orientation of a doctor after surgical study /trauma/ thoracic surgery / breast cancer/pre-op care and others...)

Observed & learned from many interesting cases in the operating room

Participated in rounds with different teams

Participated in the morning reports

Classification of cases:

General surgery: (57)

Bariatric surgery: (10)

Vascular surgery: (10)

Plastic surgery: (3)

Thoracic surgery: (3)

Urology: (3)

Neurosurgery (1)

Ob/Gyn: (1)

Cases

General surgery cases (57)

Right groin hernia/ mesh repair

Excision/biopsy cervical mass

Scalp mass / excision-biopsy

Inguinal hernia/ mesh repair

Ventral hernia/ mesh repair

Lap chole/gallbladder stones

Mass forearm/ excision biopsy

Ventral and umbilical hernia/mesh repair
Hiatal hernia/ close of the defect/mesh/nissen fundoplication
Hiatal hernia/NISSEN fundoplication
Debridement wound both legs
Lap chole for gall stones
Obstruction diverticulitis sigmoid/sigmoidectomy/anastomosis colorectal
Right hemicolectomy laparosc/ anastomose ileotransverse/masse ascending colon
Resection ileale =anastomosis ileotransverse laparotomy/staple
Right inguinal hernia/mesh repair
Right inguinal hernia/mesh repair
EGD/BIOPSY gastric
Thyroidectomy/ thyroid mass
Resection hepatic segment 4 and 5 (antecedent of surgical gallbladder cancer)
Hemorrhoidectomy closed
Ventral hernia / mesh repair
Hemorrhoidectomy staple
Ventral hernia/ paraumbilical/mesh repair
Ventral hernia/ mesh repair
EUA(examination under anethesia)/hemorrhoidectomy
Umbilical hernia/ mesh repair
Right hip mass/excision biopsy
SBO /closed loop/ exploration laparoscopy/resection/anastomosis ileoileal
Right mastectomy total/breast reconstruction/biopsy sentinel nodes
Tracheostomy/larynx mass
Adenoidectomy /base of tonsil
Closed loop /SBO / exploration laparoscopic/no resection
Tracheostomy (assisted ventilation)

Left Mastectomy radical modified (breast cancer)
Colostomy / patient unconscious who is defecating with other antecedents
Right hemicolectomy/colic cancer
Right mastectomy/biopsy sentinel nodes
Lap chole/ stone gallbladder
Umbilical hernia/mesh repair
Endoscopy GD/colonoscopy/ biopsy pylorus
Excision of pilonidal fistula
Lap chole/ gallbladder stone
Orchidectomy for hematoma post inguinal hernia repair
Exploration wall abdominal wound (v.a.c site)
Hiatal hernia/ hernia repair/Nissen fundoplication
Subcutaneous mastectomy for right breast gynecomastia (adult)
Lap chole/stone gallbladder
Left cervical lymphadenopathy / biopsy excision
Left Scapular mass/excision –biopsy
Hemorrhoidectomy staple(internal)
Right hip mass/ excision-biopsy
Left inguinal hernia/ plug and patch
Appendectomy McBurney/drain JP/ appendicitis with perforation
Right breast mass/ biopsy
Left breast BAF/ excision
Hypogastric incisional hernia/mesh repair

Bariatric surgery (10)

Sleeve gastrectomy (7 cases)
Bypass/gastrojejunostomy roux–en-Y
Conversion sleeve gastrectomy to bypass Roux-en-Y

Bypass Roux-en-Y

Vascular surgery (10)

Endovascular aneurism abdominal repair

Angiogram/embolectomy/ dilatation/right iliac vein

A-V access right forearm (2) for dialysis

Angiogram right leg (2)

Amputation AKA /gangrene of left leg

A-V left forearm (2 cases) for dialysis

Central line/ internal jugular for parenteral nutrition and medications

Plastic surgery (3)

Breast reduction

Breast reconstruction after mastectomy radical modified (2)

Thoracic surgery: (3)

Lung Biopsy for pleural effusion and thoracic drain via VATS

Lung mass/VATS/lung BIOPSY/thoracic drain

Pleural efusion VAT/S//biopsy/drain

Urology: (3)

Penile implant

Pyeloplasty

Decortication left kidney cyst

Neurosurgery (1)

Intracranial cyst/biopsy/excision

Ob/Gyn (1)

Total hysterectomy and adnexectomy

Details from records of emergency room and hospitalized cases are not included for reasons of confidentiality.
