## Introduction and thanks

I am Dr Widz Yvane Douillard, third year resident Internal Medicine from HUEH (Hôpital de l'Université d'Etat d'Haïti). I have been selected to participate in the externship within the Department of Medicine at The Brooklyn Hospital Center and also at Interfaith Medical Center.

This special program was for a period of ninety days, commencing January 13,2015 and culminating on April 17,2015.

My special thanks to:

- 1 God , he is always guiding me
- 2 AMHE members ( Dr Paul Nacier , Dr Patrick Leblanc, Dr Eric Jerome, Dr Alix Dufresne and Dr Jose Michel Charles )
- 3 AMHE NY-chapter President, Dr Micheline Lerebours Dole and the AMHE CEC President, Dr Maxime Coles
- 4 SIMACT (Dr Lesly Kernisant, President)
- 5 The Brooklyn Hospital Center (Richard B. Becker , President and CEO)
- 6 Chairman, Department of Medicine at TBHC (Dr Jean Ford)
- 7 Chairman, Department of Medicine at IMC (Dr Mark K. Adler Program Director, Internal Medicine Residency Program)
- 8 Chairman, Department of Medicine at HUEH ( Dr Elsie Metellus Chalumeau , Program Director of Internal Medicine Residency at HUEH)
- 9 To my family in particular my father Yves Douillard, my mother Elicide Georges , my aunt Marie Nicolle Douillard and also Guy Marco Cyprien for all the support during my rotation

## **Internal Medicine Department rotation**

From January 13 to January 25 2015 : MICU Medicine  
Intensive Care Unit at The Brooklyn Hospital Center

From January 26 to February 13 2015 : Nephrology at  
Interfaith Medical Center

From February 16 to February 27 2015 : Cardiology/Neurology  
at Interfaith Medical Center

From March 1st to March 13 2015 : Hematology/  
Oncology at The Brooklyn Hospital Center

From March 16 to March 27 2015 : Gastroenterology at  
The Brooklyn Hospital Center

From March 30 to April 10 2015 : Respiratory Care at  
The Brooklyn Hospital Center

From April 13 to April 17 2015 : Radiology at The  
Brooklyn Hospital Center

## **MICU Medicine Intensive Care Unit**

- 1 round every morning
- 2 teaching by Attending

## **Nephrology**

- 1 round every morning
- 2 teaching on dialysis, nephropathies by Attendings

## **Cardiology**

- 1 round every morning with Attendings
- 2 EKG Learning
- 3 Echocardiography Learning
- 4 Echocardiography practice with the echocardiography technician
- 5 Transesophageal Echocardiography
- 6 Catheterization lab : angiogram, catheterization

## **Neurology**

- 1 round every morning with Attending
- 2 clinic

## **Hemato/Onc**

- 1 round with Attendings
- 2 Examination of peripheral smear blood or bone marrow
- 3 clinic with Attendings
- 4 Tumor board every Thursday
- 5 Bone marrow Aspiration/biopsy

## **Gastroenterology**

- 1 clinic
- 2 esophagoduodenoscopy
- 3 colonoscopy
- 4 EUS endoscopic ultrasound
- 5 PEG replacement (percutaneous endoscopic gastrostomy)
- 6 ERCP (endoscopic retrograde cholangiopancreatography)
- 7 GI conference every Friday morning
- 8 clips/diathermal bipolar/biopsy/polypectomy/laser

## **Respiratory care**

- 1 round with The Respiratory therapist
- 2 teaching about types of ventilation
- 3 suction/drugs administration

## **Radiology**

Reading with Attending

- 1 Ultrasound (with doppler, abdominal, pelvic, thyroid , testicule )
- 2 CT without contrast and with contrast (head,chest, abdominal, pelvic, genital area , angiogram , esophagogram)
- 3 MRI T1 /T2 abdominal
- 4 PET/CT

## **Other activities**

1 Bi weekly presentations with Dr P. Leblanc, Dr L. Pierre and Dr P. Nacier

2 Round with Dr E. Jerome at Kingsbrook Jewish Hospital

3 Meeting with AstraZeneca at Wolfgang's Steakhouse Manhattan

4 Central Vein Catheterization at the Simulation Lab/TBHC with Dr Loidson Pierre

5 Cardiovascular Symposium in The Heart Of Brooklyn by AMHE at Interfaith Medical Center March 7, 2015

6 Gastroenterology rotation with Dr Michel Jose Charles ,Vice-President of AMHE, at Greene House Surgicare every weekend ( 55 Greene street Brooklyn New York )- endoscopy/teaching

7 AMHE Gala fundraising

## **My bi-weekly presentations**

1 Aspiration pneumonia January 28th, 2015

2 Ig A Nephropathy February 11th, 2015

3 Sarcoidosis February 25th, 2015

4 Multiple Myeloma March 11th, 2015

5 Celiac disease March 25th, 2015

6 Sjogren syndrome April 8th, 2015

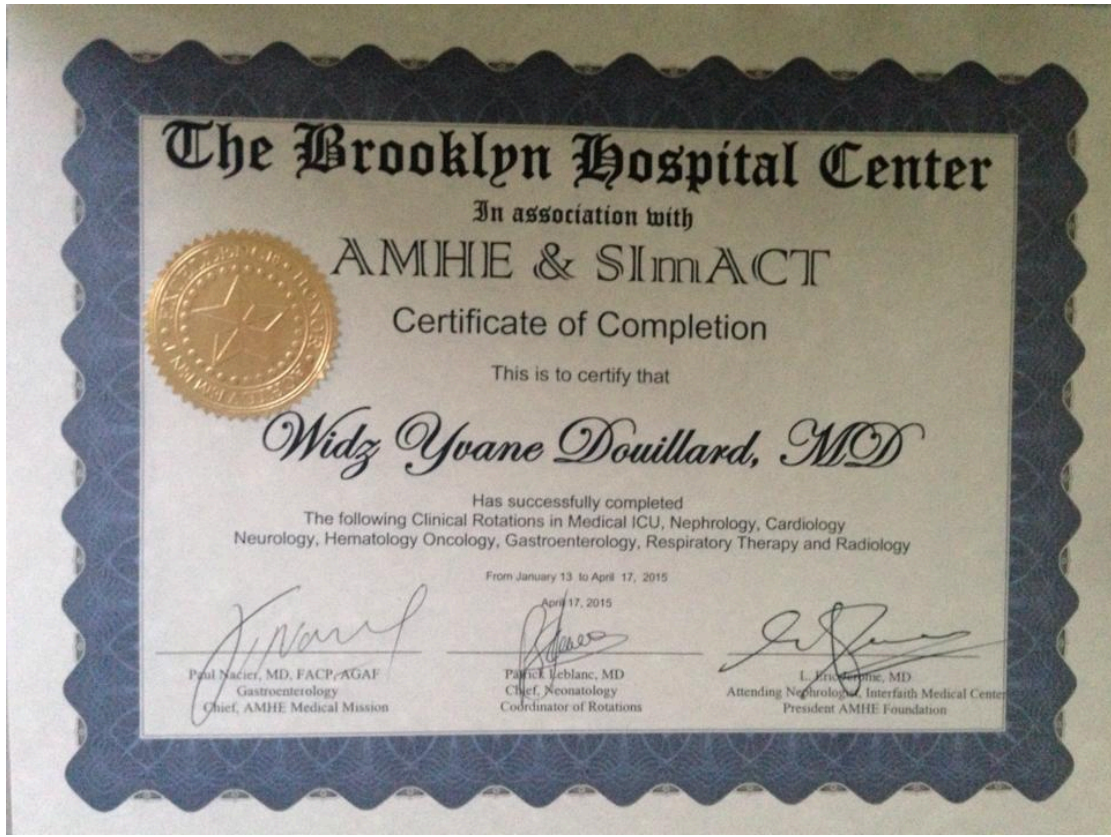

## Comments and suggestions

I really appreciate to have participated at this observership under the supervision of Attendings, whom that have devotion and ability to mold participants in the mindsets of learning. Those Attendings have worked extremely hard to hold the level of knowledge high. The quality of the round every morning with Attendings, the lectures were exceptional .I got a chance to learn how to use certain products and machinery that I was not familiar with. I hardly faced my weaknesses in Respiratory Care and Radiology .

During my rotation I learned a lot and I can identify the strength and the weaknesses of the residency program at HUEH. This program give me the tools, and help me realize how I can assist my colleagues, my residency program and mainly my country to built a better health system to serve the population.

I suggest that the program includes an externship in the Radiology Department to train some Radiology Resident from HUEH like they are doing for Internal Medicine, Pediatrics, Anesthesiology. Actually, during five days I had learned, and understood lots of things. Now in days no one can manage a patient without radiology images or radiotherapy. As clinical physician we must be able to read images as if we don't have the radiologist's report yet.

I hope the program will continue to improve the quality of care in Haiti.

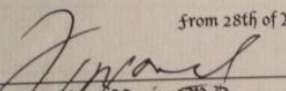

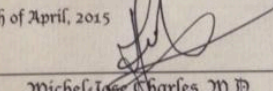

Greater Brooklyn Gastroenterology  
Care

Certificate of Training

This is to certify that  
*Widz Yvane Douillard, M.D.*  
has satisfactorily completed the course entitled  
Gastroenterology Rotation

from 28th of March to 12th of April, 2015

  
Paul Macier, M.D.  
Board Certified Gastroenterologist  
Education Director of AMBE

  
Michel Jose Charles, M.D.  
Board Certified Gastroenterologist  
Vice President of AMBE
