1. introduction

This report is a short description of my 3 months spending at Brooklyn Center Hospital from June 1 to August the 30th.

My name is Dr. Varly Pass, am on my second year medicine resident orthopedic surgery at Justinien University Hospital.

I have been selected to participate in an orthopedic externship at the Brooklyn Center Hospital, in Brooklyn, NY 11201.

This special program was for a period of approximately three (3) months (June 1 to August the 30th) and this program had the support of the association of Haitian physicians abroad (AMHE)

2. Thank

First of all I would like to thank Association of Haitian Physician Abroad for sponsoring this program, for giving to Haitian doctors, living in Haiti the opportunity to learn new medical techniques

I also would like to thank Dr Patrick Leblanc and Dr Paul Narcier for their support, they were my guide along this period, for coordinating the whole process.

Furthermore I want to thank Dr Yvel Zephir the training chief executive (H.U.J), Dr Pierre-Louis H. Michel chief of orthopedic surgery department

(H.U.J). Dr Maxime Coles, Dr Nesly Kerniza and Dr Nelson for their support.

At last i would like to thans the departement of orthopedic at Brooklyn Center Hospital especially Dr Gordon, Dr ukumado, P.A James La Voy to allow me to this interesting extership.

3. selection criterias

to be eligible the resident must:

- on second or third year of residency
- hold passeport with american vissa
- have a advenced level in english
- be able to afford a plane ticket for a travel

4. academy activities

twice a month i would gibe a full report of my activities and learning to Dr Nacier and Dr Leblanc, about the preview two (2) weeks

i would share as well any subjects my field (orthopedic)

1th meeting : fracture and dyslocation of the ankle

2th meeting : fat emboli syndrome and tendinosis of quervains

3th meeting : compartment syndrome

4th meeting : carpal tunnel syndrome

5. operating theatre cases

4. arthroscopy of the shoulder
5. partial meniscectomy
6. LCA repair with ankle tendon (archil tendon)
7. LCA repair with patella tendon (keneth jones approach)
8. malleolar fracture surgery
9. pouteau coles fracture surgery
10. archil tendon repair
11. total hip replacement revision

5.1 emergency room

12. malleolar fracture and dislocation of the ankle
13. shoulder dislocation

5.2 suit office

14. hand injury
15. tendinitis of quervain'
16. carpal tunnel syndrome
17. meta- carpa dyslocation
18. humerus fracture
19. jones fracture
20. dupytren contracture
21. cuff rotatoire
22. arthrotis (knee, hip, shoulder, spine)
23. lombar back pain
24. cortisonic infiltration intra articular (elbow, shoulder, knee, sacro-iliac joint)

6.cost

I received a total of \$ 2,050 to ensure my daily needs(mobile phone, metro card). Two cards for food at the cafeteria and a a for the laundry. Not to mention the housing was supported

7. conclusion

thought out this period a learn a lot and i was more than satisfied
it was great experience for me as an haitian resident living in Haiti.

i wish we could have more programm for haitian like that.

i wish the futur we could help other resident without american visa be eligible to this programm.
